By order ____________________________
Michelle R. Harrod, Administrator

Approved/Vetoed by the County Executive _March 10_, 2022

Calvin Ball, County Executive

NOTE: [[text in brackets]] indicates deletions from existing law; TEXT IN SMALL CAPITALS indicates additions to existing law; Strike-out indicates material deleted by amendment; Underlining indicates material added by amendment.
Section 1. Be It Enacted by the County Council of Howard County, Maryland, that the Howard County Code is amended as follows:

By amending:

Section 16.1204. Forest conservation plan.

HOWARD COUNTY CODE
Subtitle 12. Forest Conservation

Sec. 16.1204. Forest conservation plan.

(a) Applicability. Forest conservation plans, consistent with this subtitle and the manual, shall be submitted to the Department with applications for all development not exempt under section 16.1202 of this subtitle.

(b) Professionally Prepared. The forest conservation plan shall be prepared by a licensed forester, licensed landscape architect, or certified arborist.

(c) Forest Stand Delineation. The forest conservation plan shall include a forest stand delineation for the property to be subdivided, developed, or graded. An approved forest stand delineation is valid for five years. The forest stand delineation shall:

(1) Describe the extent and quality of existing forests and other vegetation and its relationship to environmentally sensitive areas on-site and to forest resources on adjacent properties.

(2) LOCATE AND LIST EACH TREE THAT IS 24 INCHES IN DIAMETER OR LARGER MEASURED AT 4.5 FEET ABOVE THE GROUND, LABELED WITH THE TREE SPECIES AND CONDITION, AND NOTE THE DIAMETER OF THE APPLICABLE STATE CHAMPION TREE OF THAT SPECIES.

[(2)][(3) Be used during the review process to determine the most suitable and practical areas for forest conservation.

(d) Forest Conservation Plan. A forest conservation plan shall:

(1) State the net tract area, area of forest conservation required, and the area of forest conservation proposed on-site and/or off-site;
(2) Show the proposed limits of disturbance;

(3) Show locations for proposed retention of existing forest and/or proposed reforestation or afforestation.

(4) Justify the following, if existing forest cannot be retained:

(i) How techniques for forest retention have been exhausted;

(ii) Why the priority forests specified in section 16.1205 of this subtitle cannot be left in an undisturbed condition;

(iii) If priority forests and priority areas cannot be left undisturbed, where on the site in priority areas reforestation or afforestation will occur in compliance with section 16.1208 of this subtitle;

(iv) How site design requirements will be followed to maximize meeting forest conservation obligations on-site in compliance with section 16.1209 of this subtitle;

(v) How the sequence for preferred reforestation or afforestation location and methods will be followed in compliance with section 16.1208 of this subtitle; and

(vi) Why reforestation or afforestation requirements cannot reasonably be accomplished on- or off-site, or through a forest mitigation bank, if the applicant proposes payments of an in-lieu fee to the forest conservation fund;

(5) Show proposed locations and types of protective devices and measures to be used during construction to protect trees and forests designated for conservation, including protection of critical root zones;

(6) In the case of reforestation or afforestation, include a reforestation or afforestation plan, with a timetable, description of needed site and soil preparation, and the species, size, and spacing of plantings;

(7) Include a minimum three growing season forest conservation agreement as specified in the manual that details how the areas designated for retention, reforestation or afforestation will be maintained to ensure protection and satisfactory establishment, including a reinforcement planting provision if survival rates fall below required standards. Financial security shall be provided for the forest conservation agreement as provided in section 16.1210 and the manual. Minor subdivisions which meet forest conservation requirements entirely by forest retention are not required to have a forest conservation agreement;
(8) Include a deed of forest conservation easement with a plat of the forest conservation
easement area, as specified in the manual that:

(i) Provides protection, in perpetuity, for areas of forest retention, reforestation and
afforestation; and

(ii) Limits uses in areas of forest conservation to those uses that are designated and
consistent with forest conservation, including recreational activities and forest management
practices that are used to preserve forest;

(9) Include other information the Department determines is necessary to implement this
subtitle; and

(10) Be amended or a new plan prepared, as provided in the manual, if required as a result
of changes in the development or in the condition of the site.

Section 2. Be It Further Enacted by the County Council of Howard County, Maryland, that this
Act shall become effective 61 days after its enactment.
BY THE COUNCIL

This Bill, having been approved by the Executive and returned to the Council, stands enacted on March 10, 2022.

Michelle Harrod, Administrator to the County Council

BY THE COUNCIL
