#### 671 ~~[17-29]~~ ~~[[17-20]]~~17-15. General requirements.

 673 no electrical equipment which is subject to the provisions of this [chapter]  
 674 Chapter [shall] may be installed, repaired or maintained until a permit  
 675 therefor has been issued by the [department] Department.

676 (b) *Application generally.* Except as provided in subsection (c), [All] all  
 677 applications for permits [shall] must be in writing and in such form as

684 must describe the work to be done and the location thereof and [shall]  
685 must be accompanied by such plans, specifications and schedules as  
686 [shall] may be necessary to determine whether the installation [will be in  
687 conformity] conforms with the provisions of this [chapter] Chapter and,  
688 if necessary, the provisions of [chapter] Chapter 8 of this Code.

689 (c) Application for installation of photovoltaic systems. The Director may  
690 accept reports and recommendations from qualified and approved  
691 photovoltaic system plan review service providers that have  
692 demonstrated that the photovoltaic system plans reviewed reliably

702 application in writing and specify the reasons for rejecting it. If the  
703 proposed work conforms to all requirements of this Chapter and all other

705 work as soon as practicable. Before issuing a permit, the person who will  
706 perform the work must demonstrate that he or she is qualified to perform

714 permit. The permit is a license to proceed with the work and may not be  
715 construed as authority to violate, cancel or set aside any of the provisions  
716 of this Chapter. Each permittee must perform all electrical services [[and  
717 low-voltage electrical services]] as required by this Chapter and the  
718 electrical code and regulations adopted under it. The issuance of a permit  
719 does not prevent the Department from thereafter requiring a correction of  
720 errors in plans or in installation or of violations of this Chapter and all  
721 other applicable laws or ordinances specifically referring thereto. The  
722 issuance of any permit is expressly conditioned upon the applicant's  
723 prompt compliance with all stop work orders issued by the Director. All

724 permits [shall] expire and [be] are null and void unless the work  
 725 authorized thereunder is commenced within [six (6) months] 180 days
